

Coordinating a Walk/Run, Race or Marathon is hard work.

Selecting the apparel for your event shouldn't be. At The Graphic Hive, we make sure that your apparel looks great, has all of the proper sponsorship logos, and is competitively priced. We've put together a little guide of what's hot in racing apparel for 2017. This year, retro is going to be big, so check out the ringer tees and raglan baseball jerseys. Performance wear is still going to be huge with hats, visors, shirts and new digi-camo styles making big statements. Last but not least, think outside the traditional box with towels, cinch packs, duffel bags, or even shorts to give your event participants something they'll use all year long. For more information, visit us on the web at www.thegraphichive.com, send us an email at info@thegraphichive.com, or give us a call at 1-888-590-3310! At The Graphic Hive, we want to take the hassle out of race-day apparel.
